The Central Lunatic Asylum. The question of rebuilding or removing this Asylum is one of the most important that will engage the attention of this session of the Legislature. A joint select

ommittee was appointed at the November

ession to inquire into the origin of the fire, the extent of the damage, the practicability of rebuilding on the ruins, and as to the propriety and policy of selling the present grounds and erecting a new structure at some other point. This comnittee was in session several days during the recess, making examination and taking testimony in the matter. We understand that a majority and minority report are to be made. The majority report recom mends that the old Lunatic Asylum be converted into a Blind Asylum. answer for the proposed new Blind Asylum, and that all the grounds not needed for this purpose be sold. There ls no recommendation of any particular point, but it is understood that some of the committee favor some locality near Columbus, while others desire it removed to some point in another part of the district. The minority report, prepared by Mr. HUTCHEson, Senator from Franklin, chairman of the committee, takes the ground that it is practicable to reconstruct the old Asylum:

this policy for the State, that measures should be taken for rebuilding at the earllest practicable moment. The reports have not yet been submitted to the General Assembly, but we are in-

building, and that in consideration of the

speedier accommodation which will thus

be afforded to the lunatic patients of the

district, and of the greater economy of

erection of a new building will require a delay of at least three years. In support of these opinions he cites the authority of Mr. KELLEY, the architect. who examined the ruins, and of Dr. Peck,

the Superintendent. That this reconstruction would not cost to exceed \$250,000, while a new structure would cost at least \$750,000; and 'careful calculations made by Mr. KELLEY are introduced to support the position.

That if the site is sold it will not realize enough to pay for the buildings and improvements that were not injured by the fire; the value of these is put at \$140.000, MAYOR HALL, of New York city, in his and of the material in the walls at \$120,000, first general order requests that he be not and that the sixty-eight acres would not addressed officially with the prefix honor-bring over \$2,000 per acre, nor much more if cut up into lots.

The plea was the failure of the Confederation, and that Confederate money was an illegal money, not money or any other thing of value. Lawyers regard this decision as a sound one. MEDICAL.

MANHOOD.

IN THE YOUNG AND RISING generation, the vegetative powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye, and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon because or identity the content of the conten comes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary di-

ments. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in Nature is to show her saving power in Nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health.—Alas! increase of appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The heautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain; the parent's heart bloods for in vain; the parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S

EXTRACT BUCHU.

For Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Langour, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such patients than Solitude and nothing they more dread, for Fear of Themselves ;

no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another. These symptoms, if allowed to go on —which this Medicine invariably re-

moves—soon follow Loss of Power, Fa-tuity, and Epileptic Fits, in one of which the patient may expire: During the Superintendence of Dr. Wilson, at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and both died of epilepsy.
